The Chair stated that this item of the agenda is not subject to vote.

Afterwards, he asked Mr Martin Pisklák to acquaint the shareholders present with the contents of the Board of Directors' report on the Company's business activities for 2023, as well as the summary explanatory report and the conclusions of the 2023 Report on Relations. The full text of these reports has been published together with the invitation to this General Meeting on the Company's website.

Mr. Martin Pisklák summarized the Board of Directors' report: he stated that 2023 was a very successful year for the entire Kofola Group. There were no negative events unlike in previous years, which had a positive impact on the Company's results. Revenues grew by more than 10%, despite a decline in consumption and sales volumes. This decline was offset by internal cost efficiencies and a change in cost structure. Gross margin also increased by 17.5% from CZK 3.3 billion to CZK 3.9 billion. Revenues reached CZK 8.7 billion. EBITDA as the main profitability indicator increased from CZK 1.1 billion to CZK 1.25 billion. The Company's consolidated net profit increased from CZK 209 million to CZK 340 million. The Company's debt has been reduced and is now at 2.3 times EBITDA and the Company has sufficient funds for growth. All business segments performed well, with UGO trade s.r.o. reaching an operating profit. As a result of inflation, the value of receivables, payables and inventories increased, but so did the profitability.

After discussing the contents of the Board of Directors' report, Mr. Martin Pisklák summarized the content of the summary explanatory report and the Report on Relations to the shareholders present, where there were no significant changes compared to previous years.

Shareholders were then invited to ask questions about the reports.

Regarding a shareholder's query about the acquisition of FILIP REAL a.s., which owns the hotel, it was stated that this was done to consolidate the Company's premises in Zbraslav, where LEROS, s.r.o. is residing. The sole purpose of the transaction was to unify the premises and thus to increase its value.

Another shareholder's question concerned the shares of Radenska. There have been no changes in this matter and the Company still holds the shares and has no plans to dispose them off.

Regarding the shareholders' queries on the possibilities of LEROS, s.r.o. in the field of pharmacy, it was reported that LEROS has been active in the pharmaceutical sector for its entire existence through herbal teas, which are licensed by the State Institute for Drug Control. Currently, this is being worked more towards retail customers. There has also been a renewal of the production lines as the requirements just for products subject to the drug regime are increasing.

Another shareholder inquiry concerned the purchase of 60 hectares of orchards. It was stated that no further investment would be required as it was a complete and functional site. The motive for this transaction was to increase self-sufficiency in apple and pear production and possibly in herb production.

When asked by a shareholder about the Company's activities in Colombia, it was answered that the Group is enhancing its position as a coffee seller. The Company has become a minority owner of plantations in Colombia which is considered as a development of the Company in this field including setting up the full supply chain for the coffee business. An investment and business development plans are being drawn up and discussed. At the same time, the Company has no ambition to increase its stake in the plantation.

In response to a shareholder's query about diversifying the portfolio through products containing alcohol, it was replied that the Group currently produces beer and cider, with the understanding

that these are related categories to soft drinks. Such related areas are being monitored for possible further development.

To the further question from a shareholder regarding the investment in the breweries, it was stated that this was done because there is an overlap between the customers of the breweries and Kofola and that this was done after long consideration and planning. The acquisition was made partly using a loan, partly using own resources and partly with resources from the RSJ Investment Fund and the agricultural company Úsovsko a.s. through the company PIVOVARÝ TRIANGL s.r.o. On 8 March 2024, the transaction was completed and the management of the breweries was nominated by Kofola as the owner of 51% of the shares. The breweries are in a good financial condition. Investment may be required in the future to ensure further growth.

On a query regarding subsidies for the reconstruction of the Company's future headquarters in the Dolní Vítkovice area, it was stated that these are still under discussion, but that the outlook is optimistic. The subsidy had been provisionally pledged and the reconstruction could be carried out within two years.

On a query about interest rates on the Company's loans, it was stated that the rates on euro loans are fixed and are lower than those on the market. The CZK-denominated loans are not fixed because of the interest rate trend at the time, but they are falling and should continue to fall. In the event of a drop in the value of the CZK, no material adverse effect should be incurred due to the balanced mix of liabilities and receivables in the Group.

Another shareholder's question was about the possible introduction of an excise tax on sugar. The answer was that this tax had already been introduced in Croatia, with the provision that in such cases there is a decrease in consumption of about 8-10% due to the increase in price in the first year after the introduction of this tax. In the mid-term, however, consumption returns to the original values. In Slovakia, the introduction of the excise duty on sugar is expected to lead to an expected pass-through of the tax to the sales prices of all market players, including competitors.

Regarding a shareholder's query concerning the sale of assets in Poland, it was reported that the last production site in Grodzisk Wielkopolski had been sold. Thus, the Company remains active in Poland only through the company Premium Rosa and there is no development of the Company's activities within the Group and no such development is planned.

The discussion of para 2 of the General Meeting was then closed.

Para 3: Report of the Supervisory Board on the results of control activities including information on the review of the Report on Relations

The Chairman of the General Meeting invited the Chairman of the Company's Supervisory Board, Mr. Rene Sommer, to inform the shareholders of the contents of the Supervisory Board's report on the results of control activities for the year 2023. It was noted that there was no vote on this item either.

Mr René Sommer pointed out that the report had been published at the Company's website. The Supervisory Board is still functioning with 5 members and meets regularly, in person and online, using per rollam voting. Following the discussion of the Company's Board of Directors report, the Supervisory Board found no irregularities in it. The internal audit also found no deficiencies in the annual report or the Board of Directors report. Based on this work, the Supervisory Board declares that it has not identified any material weaknesses in the activities of the Company's Board of Directors. The Supervisory Board has also reviewed the 2023 Report on Relations and has no caveats regarding its content. On the basis of these facts and taking into account the auditor's

opinion, the Supervisory Board recommends the General Meeting to approve the Company's financial statements and the Group's consolidated financial statements.

The discussion of para 3 of the General Meeting was then concluded.

Para 4: Approval of the Company's financial statements for 2023 and the consolidated financial statements of Kofola ČeskoSlovensko group for 2023

The Chairman invited the representative of the Board of Directors to present the Company's 2023 financial statements and the consolidated financial statements of the Kofola ČeskoSlovensko Group for 2023 to the shareholders. After this was done, the shareholders were invited to present questions.

In response to a shareholder's query regarding the difference in net profit as per the annual report and financial presentations compared to the figures disclosed at this General Meeting, it was advised that the difference was caused by the fact that one amount corresponds to the net profit as per the Company's accounts and the other corresponds to the consolidated net profit as per the Group's consolidated accounts. It was also stated that the presentation of the figures would be revised for clarity.

Another shareholder query was directed to the impairment related to UGO trade s.r.o. According to the representative of the Board of Directors, it was created in response to the covid crisis, when the sales of UGO trade s.r.o. dropped significantly. Since the crisis had abated and sales had increased significantly, the provision was dissolved. The consolidated financial statements are then free of this item.

The vote was then taken with the understanding that correspondence votes would be taken into account for this item of business at the Company's General Meeting:
